

iQ 16 Sync Charge Box™

Sync and charge up to 16 iPad®, iPad Air™, iPad mini™ or other iOS devices.

Efficient syncing means more time to teach and learn.

Using iTunes or Apple Configurator on your Mac, the iQ 16 Sync Charge Box™ can sync up to 16 devices simultaneously.¹

Efficient charging makes for a more productive iOS device.

Equipped with 16 (2.1 amp powered) USB ports so you can connect and charge up to 16 devices simultaneously.

Designed to be portable. Sync and charge anywhere, anytime. The iQ 16 Sync Charge Box is a hand held USB hub that can be carried to locations where iOS devices are stored.

Compatible. The iQ 16 Sync Charge Box is designed to connect with any iOS device.

Lightning™ to USB Cables. Equipped with 16x MFI approved POWER READY™ illuminating smart cables.

2 year warranty. LocknCharge Products are built to last.²

lockncharge

It just makes life easier.

POWER READY™ Lightning to USB cables illuminate when connected to a power source. This allows Teachers and IT Administrators to see and ensure that the devices are charging.

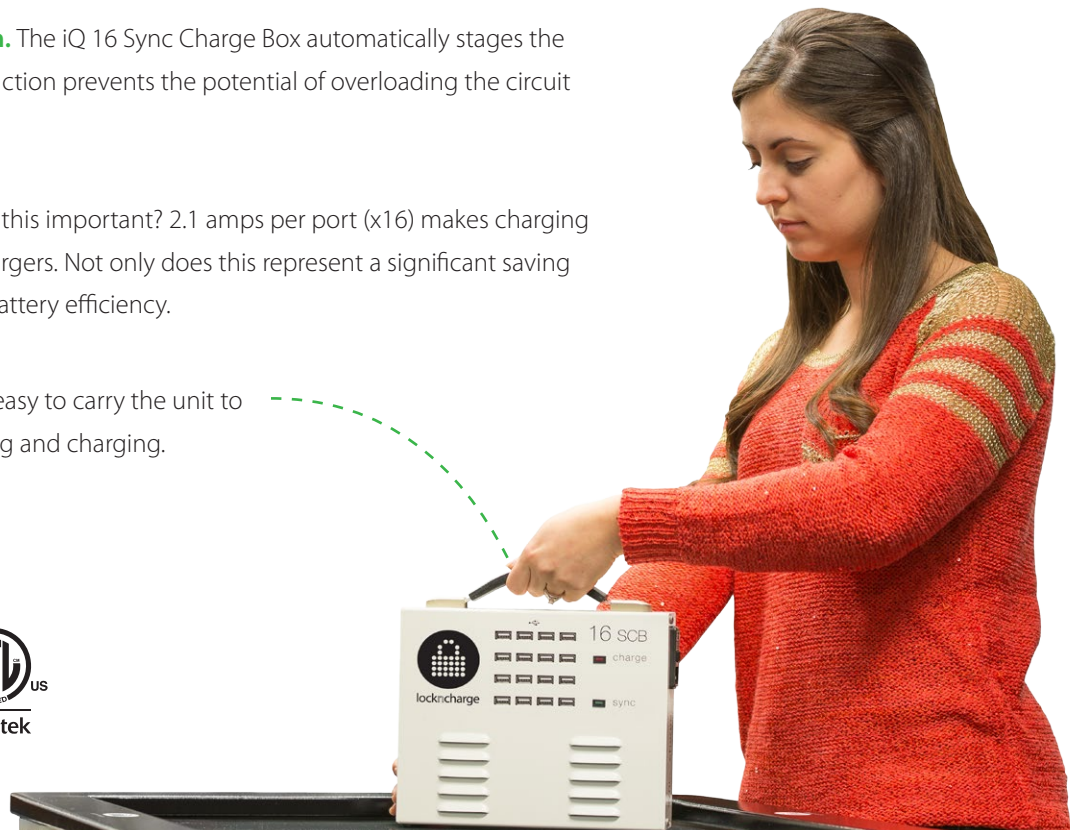

Intelligent power management system. The iQ 16 Sync Charge Box automatically stages the availability of power to each port. This function prevents the potential of overloading the circuit and protects your iPad devices.

2.1 amps of power at each port. Why is this important? 2.1 amps per port (x16) makes charging more efficient than conventional USB chargers. Not only does this represent a significant saving in time, it can also significantly improve battery efficiency.

Portability. The built-in handle makes it easy to carry the unit to locations where iPad devices need syncing and charging.

Specifications:

Apple Part Number: LNC16SCB
MSRP: \$999
