

FUYL Cell™

Charge, store
and secure your
Apple® devices.

Safe storage. FUYL Cells are designed to store and secure valuable Apple devices. Each Cell has five individually lockable compartments, so you can charge your device while it's not being used.

Highly compatible. Each compartment is equipped with a power point and two USB ports, so you can charge almost any Apple device.

Lifetime warranty. LocknCharge products are built to last.¹

Secure charging. Create a secure charging facility in any environment with LocknCharge FUYL Cells. Perfect setup for schools, universities, convention centers or anywhere Apple devices are used.

Modular and scalable. Mount the FUYL Cells on a wall or stack them on top of one another. It's your choice! FUYL Cells are designed to adapt to almost any environment.

Fully ventilated. Uniquely designed for passive ventilation to minimize heating during charging.

It just makes life easier.

Taming the BYOD beast. FUYL Cells are designed to individually store, charge and secure any Apple device, making it the perfect solution for BYOD programs. The size and shape of the FUYL Cell means that it can be installed almost anywhere and in any form. It can be mounted onto a wall or stacked one on top of one another as a free standing column.

Charging. Each compartment features two USB ports as well as a power point in each compartment, so that your Apple device is fully charged when you need it. The USB-A port delivers 2.1 amp power, perfect for iPad devices, while the USB-B port can charge less power demanding devices such as iPods and iPhones.

Safe and Secure. Equipped with Digital Locks that work just like a hotel safe. This means that individuals self-manage the security and charging of their Apple device, relieving IT administrator time and resources.

Efficient Storage. Each Cell is equipped with five compartments for storing Apple devices. While a compartment is not in use, it can be made available for the next person needing secure charging. This means that you don't need one compartment per user, making it a cost effective BYOD security and charging station.

Pedestal. Planning on stacking your FUYL Cells into columns? We recommend that you add a Pedestal to elevate them off the floor. This will provide easier access to the bottom compartments. The LocknCharge Pedestal is available on apple.lockncharge.com or the Apple Store. Apple Part Number: [insert] MSRP: \$229

Specifications:

Apple Part Number: LNC3008 (single FUYL Cell)
MSRP: \$1599 each
