Carrier 40 Specs: 36.6" (H) x 26.3" (W) x 33.6" (L) | 159.3 lbs

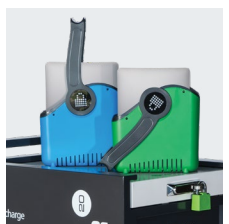

## LocknCharge makes life easier.

**Top Loading Cart Design.** Access from multiple sides at once allows for quicker distribution of devices, plus no more bending down to remove devices from a bottom shelf. The top-sliding lid doubles as a work surface. Cabinet style carts can take 2-3 times longer to wire, and the removable panel in the bottom gives full access to power cords.

**Organized Cables and Hidden Bricks.** Minimize Cart clutter by clipping down cables. Cables stay organized in the unique side channel, allowing you to plug in devices quickly after each use. Power bricks are stored in the bottom of the Cart, making sure they don't go missing.

**Baskets by LocknCharge.** Slotted device Baskets by LocknCharge make device deployments faster and more efficient while protecting devices as they're being distributed.

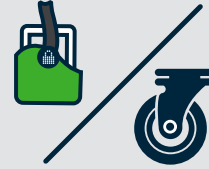

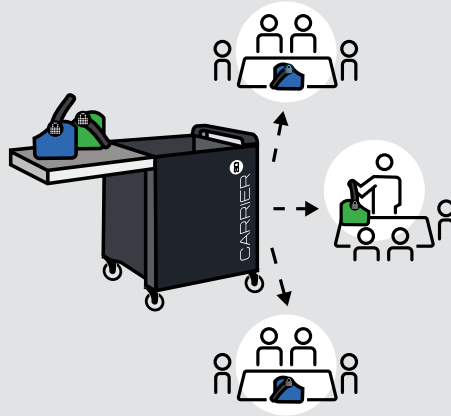

**External Charging Status Display.** With our Carrier Carts, it's easy to know the charging status of your devices through the external ECO Safe Charge™ display.

# Smarter Workflow

**Save Time, Save Money.** Our goal is to save you valuable time, thus putting money back towards your bottom line. Access from three sides enables hand out and pack up of devices in less time. Plus, Carrier Carts are easy to cable, so you can spend less time wiring carts and more time working on high-priority technology projects.

**Perfect for Shared Use.** Not enough devices to go around? You can now easily share a small handful or a whole dang cartload of mobile devices between multiple areas without the fuss. When teamed up with our baskets, our lightweight, easy-to-maneuver Carts allow you to transport mobile devices quickly, safely and easily.

## Additional Key Benefits

**Magical Unicorn Lifetime Warranty.** All of our products are now fully backed by a lifetime warranty on the main frame, electrical and all other components.\* It's a one-of-a-kind guarantee that's as unique as a magical unicorn.

**World-Class Customer Support.** Our helpful and friendly Customer Support team will promptly assist with any product issues or questions that may arise.

**Compatible & Efficient.**<sup>1</sup> Larger devices never have to feel left out. Carrier Carts can accommodate and charge 20, 30 or 40 of almost any device, with or without cases.

**Top Sliding Lid Doubles as Work Surface.** The secure lid can be used as a work surface in space-strapped rooms.

**Secure.** Protect your device investment without worry. Lock away devices in the storage area with a padlock. An optional anchor kit locks the whole Cart to the floor.

**No Keys to Worry About.** Our Carrier Cart comes with a high-quality, combination padlock.

**Safe Power Management.** Never blow a fuse again. ECO Safe Charge™ handles power requirements of almost any device by staging the availability of power. Plus, it ensures that devices are not overcharged, increasing their longevity.

**Future-Proof.** Think inside the box, and you won't be stuck with a bunch of outdated Carts. Removable racks and Baskets allow this Cart to adapt to future needs as devices change or new technology is added.

**External power outlet.** With an external power outlet you can easily charge devices like a projector or other peripherals.
